**The Military in Burma/Myanmar** Mar 31 2023 The Myanmar military has dominated that complex country for most of the period since independence in 1948. The fourth coup of 1 February 2021 was the latest by the military to control those aspects of society it deemed essential to its own interests, and its perception of state interests. The military's institutional power was variously maintained by rule by decree, through political parties it founded and controlled, and through constitutional provisions it wrote that could not be amended without its approval. This fourth coup seems a product of personal demands for power between Senior General Min Aung Hlaing and Aung San Suu Kyi, and the especially humiliating defeat of the military-backed party at the hands of the National League for Democracy in the November 2020 elections. The violent and bloody suppression of widespread demonstrations continues, compromise seems unlikely, and the previous diarchic governance will not return. Myanmar's political and economic future is endangered and suppression will only result in future outbreaks of political frustration.

*The Hidden History of Burma: Race, Capitalism, and the Crisis of Democracy in the 21st Century* Jan 05 2021 How did one of the world's "buzzy hotspots" (Fodor's 2013) become one of the top ten places to avoid (Fodor's 2018)? Precariously positioned between China and India, Burma's population has suffered dictatorship, natural disaster, and the dark legacies of colonial rule. But when decades of military dictatorship finally ended and internationally beloved Nobel laureate Aung San Suu Kyi emerged from long years of house arrest, hopes soared. World leaders such as Barack Obama ushered in waves of international support. Progress seemed inevitable. As historian, former diplomat, and presidential advisor, Thant Myint-U saw the cracks forming. In this insider's diagnosis of a country at a breaking point, he dissects how a singularly predatory economic system, fast-rising inequality, disintegrating state institutions, the impact of new social media, the rise of China next door, climate change, and deep-seated feelings around race, religion, and national identity all came together to challenge the incipient democracy. Interracial violence soared and a horrific exodus of hundreds of thousands of Rohingya refugees fixed international attention. Myint-U explains how and why this happened, and details an unsettling prognosis for the future. Burma is today a fragile stage for nearly all the world's problems. Are democracy and an economy that genuinely serves all its people possible in Burma? In clear and urgent prose, Myint-U explores this question—a concern not just for the Burmese but for the rest of the world—warning of the possible collapse of this nation of 55 million while suggesting a fresh agenda for change.

**Burma** Jun 09 2021 UPDATED For more than 50 years, Burma has been ruled by a succession of military regimes which rank among the most oppressive dictatorships in the world. Accused of crimes against humanity, they have brutally mistreated their people. Yet, in the last few years, the pace of change has been breathtaking. Much is now hoped for. However, Burma is one of the most ethnically diverse nations in Southeast Asia: there are roughly seven major ethnic groups living along its borders. They have a long history of conflict with the government and have been cruelly treated by the current regime. Their future affects the country as a whole, as Benedict Rogers explains. Drawing heavily on his many fact-finding visits both inside Burma and along its frontiers, he gives a unique appraisal of the current ethnic situation and its implications for the nation as a whole. Wide-ranging, expertly researched, and full of brand new accounts of the courage and determination of the Burmese people, *Burma: A Nation at the Crossroads* explains the country's conflicted history, as well as its contemporary struggle for justice. Burma stands poised for freedom, or for further repression. No one can be sure. This fascinating and accessible book describes what is really happening inside this beautiful, secretive, and potentially prosperous country.

**The Other Ladies of Myanmar** Feb 24 2020 In Myanmar, Aung San Suu Kyi is often not called by her name. Instead, she is just "The Lady", an honorific nickname that signifies her place in the collective imagination of her country. And from global human rights icon to Myanmar's de facto leader, she is certainly a towering figure. But The Lady's reputation has only tarnished in recent years in the face of the persecution of her country's Rohingya minority. In this new book, we present some of Myanmar's other ladies: women from across the social spectrum who are changing their country, and its perceptions of gender, from the ground up. From the artist who defied the junta to hand out sanitary towels at her exhibition, to the Muslim campaigner who has already spent a quarter of her life in prison; from the feminist Buddhist nun to the pop star who gets called a whore for performing; these are the voices of The Other Ladies of Myanmar.

**Burma/Myanmar** Oct 02 2020 Recent changes in Burma/Myanmar have been called the "Burmese democratic spring." While the international media have mainly focused on the economic opportunities offered by these changes and on the doings and sayings of Aung San Suu Kyi, the reality is far more complex. The country is desperately poor, divided by ethnic and religious rivalries and continues to suffer from some of the world's most intractable military conflicts while powerful elite factions oppose reform. Where, then, is the country heading? What are the key challenges it will face? Who are likely to be the key players in the unfolding events? With contributions on topics like the political situation, international relations, ethnic and religious rivalries, and the economy, long-time observers of the situation offer insights and analysis that address these issues.

**Buddhist Law in Burma** Feb 03 2021 Burma and neighboring areas of Southeast Asia comprise the only region of the world to have developed a written corpus of Buddhist law claiming jurisdiction over all members of society. Yet in contrast with the extensive scholarship on Islamic and Hindu law, this tradition of Buddhist law has been largely overlooked. In fact, it is commonplace to read that Buddhism gave rise to no law aside from the vinaya, or monastic law. In *Buddhist Law in Burma*, D.

Christian Lammerts upends this misperception and provides an intellectual and literary history of the dynamic jurisprudence of the dhammasattha legal genre between the thirteenth and nineteenth centuries. Based on a critical study of hundreds of little-known surviving dhammasattha and related manuscripts, *Buddhist Law in Burma* demonstrates the centrality of law as a crucial discipline of Buddhist knowledge in precolonial Southeast Asia. Composed by lay and monastic jurists in prose and verse, in Pali, Burmese, and other regional vernaculars, dhammasattha were intended for use by judges to guide the adjudication of legal disputes. Lammerts argues that there were multiple, sometimes contentious, modes of reckoning Buddhist jurisprudence and legal authority in the region and assesses these in the context of local cultural, textual, and ritual practices. Over time the foundational jurisprudence of the genre underwent considerable reformulation in light of arguments raised by its critics, bibliographers, and historians, resulting in a reorientation from a cosmological to a more positivist conception of Buddhist law and legislation that had far-reaching implications for innovative forms of dhammasattha-related discourse on the eve of British colonialism. *Buddhist Law in Burma* shows how, despite such textual and theoretical transformations, late precolonial Burmese jurists continued to promote and justify the dhammasattha genre, and the role of law generally in Buddhism, as a vital aspect of the ongoing effort to protect and preserve the sāsana of Gotama Buddha. The book will be of value to students and scholars interested in the rich legal, intellectual, and cultural histories of Buddhism in Burma and Southeast Asia, or in the historical intersections of law and Buddhism.

***Wartime in Burma*** Feb 27 2023 This diary, begun after the Japanese attack on Pearl Harbor and covering the invasion of Burma up to June 1942, is a moving account of the dilemmas faced by the well-loved and prolific Burmese author Theippan Maung Wa (a pseudonym of U Sein Tin) and his family. At the time of the Japanese invasion, U Sein Tin was deputy secretary in the Ministry of Home and Defense Affairs. An Oxford-trained member of the Indian Civil Service, working for the British administration on the eve of the invasion, he lived with his wife and three small children in Rangoon. *Wartime in Burma* is a stirring memoir that presents a personal account of U Sein Tin's feelings about the war, his anxiety for the safety of his family, the bombing of Rangoon, and what happened to them during the next six chaotic months of the British retreat. The author and his family leave Rangoon to live in a remote forest in Upper Burma with several other Burmese civil servants, their staff, and valuable possessions—rich pickings for robbers. His diary ends abruptly on June 5, his forty-second birthday; U Sein Tin was murdered on June 6 by a gang of Burmese bandits. The diary pages, scattered on the floor of the house, were rescued by his wife and eventually published in Burma in 1966. What survives is a unique account that shines new light on the military retreat from Burma.

***Soldiers and Diplomacy in Burma*** Nov 26 2022 *Soldiers and Diplomacy* addresses the key question of the ongoing role of the military in Burma's foreign policy. The authors, a political scientist and a former top Asia editor for the BBC, provide a fresh perspective on Burma's foreign and security policies, which have shifted between pro-active diplomacies of neutralism and non-alignment, and autarkical policies of isolation and xenophobic nationalism. They argue that important elements of continuity underlie Burma's striking postcolonial policy changes and contrasting diplomatic practices. Among the defining factors here are the formidable dominance of the Burmese armed forces over state structure, the enduring domestic political conundrum and the peculiar geography of a country located at the crossroads of India, China and Southeast Asia. Egreteau and Jagan argue that the Burmese military still has the tools needed to retain their praetorian influence over the country's foreign policy in the post-junta context of the 2010s. For international policymakers, potential foreign investors and Burma's immediate neighbors, this will have strong implications in terms of the country's foreign policy approach.

***Chinese in Colonial Burma*** Jun 21 2022 Using previously unexplored archives from colonial institutions and individuals, and primary materials produced by the Burmese Chinese, this comprehensive study investigates over a century of history of the Burmese Chinese under British colonial rule. Due to the peculiar position of Burma in the British imperial world and the Southeast Asian Chinese network, the Chinese community had a unique experience in a Southeast Asian colony governed by Europeans with an India-based system. This book reveals, through everyday life experience, prominent community figures, and milestone events, the internal rivalry and integration among different regional groups within the community, and the general impressions it left in contemporary observations and communal memories. The book also traces historical roots of some unsolved ethnic issues in present-day Myanmar.

***Finding George Orwell in Burma*** Nov 02 2020 A fascinating political travelogue that traces the life and work of George Orwell, author of *1984* and *ANIMAL FARM*, in Southeast Asia Over the years the American writer Emma Larkin has spent traveling in Burma, also known as Myanmar, she's come to know all too well the many ways this brutal police state can be described as "Orwellian." The life of the mind exists in a state of siege in Burma, and it long has. But Burma's connection to George Orwell is not merely metaphorical; it is much deeper and more real. Orwell's mother was born in Burma, at the height of the British raj, and Orwell was fundamentally shaped by his experiences in Burma as a young man working for the British Imperial Police. When Orwell died, the novel-in-progress on his desk was set in Burma. It is the place George Orwell's work holds in Burma today, however, that most struck Emma Larkin. She was frequently told by Burmese acquaintances that Orwell did not write one book about their country - his first novel, *Burmese Days* - but in fact he wrote three, the "trilogy" that included *Animal Farm* and *Nineteen Eighty-Four*. When Larkin quietly asked one Burmese intellectual if he knew the work of George Orwell, he stared blankly for a moment and then said, "Ah, you mean the prophet!" In one of the most intrepid political travelogues in recent memory, Emma Larkin tells of the year she spent traveling through Burma using the life and work of George Orwell as her compass. Going from Mandalay and Rangoon to poor delta backwaters and up to the old hill-station towns in the mountains of Burma's far north, Larkin visits the places where Orwell worked and lived, and the places his books live still. She brings to vivid life a country and a people cut off from the rest of the world, and from one another, by the ruling military junta and its vast network of spies and informers. Using Orwell enables her to show, effortlessly, the weight of the colonial experience on Burma

today, the ghosts of which are invisible and everywhere. More important, she finds that the path she charts leads her to the people who have found ways to somehow resist the soul-crushing effects of life in this most cruel police state. And George Orwell's moral clarity, hatred of injustice, and keen powers of observation serve as the author's compass in another sense too: they are qualities she shares and they suffuse her book - the keenest and finest reckoning with life in this police state that has yet been written.

**Refiguring Women, Colonialism, and Modernity in Burma** May 28 2020 *Refiguring Women, Colonialism, and Modernity in Burma* presents the first study of one of the most prevalent and critical topics of public discourse in colonial Burma: the woman of the *khit kala*—"the woman of the times"—who burst onto the covers and pages of novels, newspapers, and advertisements in the 1920s. Educated and politicized, earner and consumer, "Burmese" and "Westernized," she embodied the possibilities and challenges of the modern era, as well as the hopes and fears it evoked. In *Refiguring Women*, Chie Ikeya interrogates what these shifting and competing images of the feminine reveal about the experience of modernity in colonial Burma. She marshals a wide range of hitherto unexamined Burmese language sources to analyze both the discursive figurations of the woman of the *khit kala* and the choices and actions of actual women who—whether pursuing higher education, becoming political, or adopting new clothes and hairstyles—unsettled existing norms and contributed to making the woman of the *khit kala* the privileged idiom for debating colonialism, modernization, and nationalism. The first book-length social history of Burma to utilize gender as a category of sustained analysis, *Refiguring Women* challenges the reigning nationalist and anticolonial historical narratives of a conceptually and institutionally monolithic colonial modernity that made inevitable the rise of ethnonationalism and xenophobia in Burma. The study demonstrates the irreducible heterogeneity of the colonial encounter and draws attention to the conjoined development of cosmopolitanism and nationalism. Ikeya illuminates the important roles that Burmese men and women played as cultural brokers and agents of modernity. She shows how their complex engagements with social reform, feminism, anticolonialism, media, and consumerism rearticulated the boundaries of belonging and foreignness in religious, racial, and ethnic terms. *Refiguring Women* adds significantly to examinations of gender and race relations, modernization, and nationalism in colonized regions. It will be of interest to a broad audience—not least those working in the fields of Southeast Asian studies, colonial and postcolonial studies, cultural studies, and women's and gender studies.

*Promoting Human Rights in Burma* Sep 24 2022 Since 1988, when Burma's military rulers crushed a popular uprising, Western governments have promoted democracy as a panacea for the country's manifold development problems. Morten B. Pedersen argues that Western democracy rhetoric has not supplied the solution to these problems. Based on extensive field research, *Promoting Human Rights in Burma* proposes an alternative model of critical engagement that emphasizes more pragmatic efforts to help bring a deeply divided society together and promote socioeconomic development as the basis for longer-term political change.

*Have Fun in Burma* Jan 29 2023 Adela Frost wants to do something with her life. When a chance encounter and a haunting dream steer her toward distant Burma, she decides to spend the summer after high school volunteering in a Buddhist monastery. Adela finds fresh confidence as she immerses herself in her new environment, teaching English to the monks and studying meditation with the wise abbot. Then there's her secret romance with Thiha, an ex-political prisoner with a shadowy past. But when some of the monks express support for the persecution of the country's Rohingya Muslim minority, Adela glimpses the turmoil that lies beneath Burma's tranquil surface. While investigating the country's complex history, she becomes determined to help stop communal violence. With Thiha's assistance, she concocts a scheme that quickly spirals out of control. Adela must decide whether to back down or double down, while protecting those she cares about from the backlash of Buddhist and Muslim extremists. Set against the backdrop of Burma's fractured transition to democracy, this coming-of-age story weaves critiques of "voluntourism" and humanitarian intervention into a young woman's quest for connection across cultural boundaries. This work of literary fiction will fascinate Southeast Asia buffs and anyone interested in places where the truth is bitterly contested territory.

**Citizenship in Myanmar** Jul 23 2022 Myanmar is going through a period of profound — and contested — transition. The country has experienced widespread if sometimes uneven reforms, including the start of a peace process between the government and Myanmar Army, and some two dozen ethnic armed organizations, which had long been fighting for greater autonomy from the militarized and Burman-dominated state. This book brings together chapters by Burmese and foreign experts, and contributions from community and political leaders, who discuss the meaning of citizenship in Myanmar/Burma. The book explores citizenship in relation to three broad categories: issues of identity and conflict; debates around concepts and practices of citizenship; and inter- and intra-community issues, including Buddhist–Muslim relations. This is the first volume to address these issues, understanding and resolving which will be central to Myanmar's continued transition away from violence and authoritarianism.

**Secrets and Power in Myanmar** Feb 15 2022 "No external observer knows more about Myanmar's security and intelligence apparatus than Andrew Selth. In this book he presents an account of the structure and functions of Myanmar's deep state, along with a tale of personal ambition, rivalry and ruthless power politics worthy of John Le Carre. A thoroughly educative, entertaining and intriguing read." — Professor Michael Wesley, Dean, College of Asia and the Pacific, The Australian National University "Andrew Selth has once again amply illustrated the depth and penetration of his study of Myanmar/Burma and its institutions. This work on the more recent aspects of the country's intelligence apparatus goes beyond a masterful and comprehensive analysis of the Burmese intelligence community, and probes the social and institutional bases of the attitudes giving rise to that critical aspect of power. We are once again in Dr Selth's debt. This is required reading for serious observers of the Burmese scene." — David I. Steinberg, Distinguished Professor of Asian Studies Emeritus, Georgetown University "By lifting the lid on a pervasive yet secretive intelligence apparatus, Andrew Selth makes an outstanding contribution to Myanmar Studies. For scholars and practitioners alike, this book provides an essential history of a security state that remains powerful even during the transition away from overt authoritarian rule." — Professor Ian Holliday, Vice-President (Teaching and Learning), The University of Hong Kong

**Miss Burma** Mar 26 2020 "Craig wields powerful and vivid prose to illuminate a country and a family trapped not only by war and revolution, but also by desire and loss." — Viet Thanh Nguyen, Pulitzer Prize-winning author *Miss Burma* tells the story of modern-day Burma through the eyes of Benny and Khin, husband and wife, and their daughter Louisa. After attending school in Calcutta, Benny settles in Rangoon, then part of the British Empire, and falls in love with Khin, a woman who is part of a long-persecuted ethnic minority group, the Karen. World War II comes to Southeast Asia, and Benny and Khin must go into hiding in the eastern part of the country during the Japanese occupation, beginning a journey that will lead them to change the country's history. Years later, Benny and Khin's eldest child, Louisa, has a danger-filled, tempestuous childhood and reaches prominence as Burma's first beauty queen soon before the country falls to dictatorship. As Louisa navigates her newfound fame, she is forced to reckon with her family's past, the West's ongoing covert dealings in her country, and her own loyalty to the cause of the Karen people. Based on the story of the author's mother and grandparents, *Miss Burma* is a captivating portrait of how modern Burma came to be and of the ordinary people swept up in the struggle for self-determination and freedom. "At once beautiful and heartbreaking . . . An incredible family saga." —Refinery29 "Miss Burma charts both a political history and a deeply personal one—and of those incendiary moments when private and public motivations overlap." —Los Angeles Times

**State Dominance in Myanmar** May 21 2022 Focuses on the state's efforts to industrialize Myanmar, first through direct intervention and planning under a socialist economic framework as interpreted by the state leaders (1948-88) and lately (1989 onwards) through state-managed outward orientation.

*The Politics of Aid to Burma* Oct 26 2022 For over sixty years, conflict between state forces and armed ethnic groups was ongoing in parts of the borderlands of Burma. Ethnic minority communities were subjected to systematic and widespread abuses by an increasingly complex patchwork of armed state and non-state actors. Populations in more remote and disputed border areas typically had little to no access to even basic healthcare and education services. As part of its counter-insurgency campaign, the military state also historically restricted international humanitarian access to civilian populations in unstable border areas. It was in this context that "cross-border aid" to Burma had developed, as an alternative mechanism for channelling assistance to populations denied aid through more conventional systems. Yet by the late 2000s, national and international changes had significant impacts on an aid debate, which had important political and ethical implications. Through an ethnographic study of a cross-border aid organisation working on the Thailand-Burma border, this book focuses on the political and ethical dilemmas of "humanitarian government". It explores the ways in which aid systems come to be defined as legitimate or illegitimate, humanitarian or "un-humanitarian", in an international context that has witnessed the multiplication of often-conflicting humanitarian systems and models. It examines how an "embodied history" of violence can shape the worldviews and actions of local humanitarian actors, as well as institutions created to mitigate human suffering. It goes on to look at the complex and often-invisible webs of local organisations, international NGOs, donors, armed groups and other actors, which can develop in a cross-border and extra-legal context – a context where competing constructions of systems as legitimate or illegitimate are highlighted. Exploring the history of humanitarianism from the local aid perspective of Burma, this book will be of interest to students and scholars of Southeast Asian Studies, Anthropology of Humanitarian Aid and Development Studies.

**Strong Soldiers, Failed Revolution** Mar 19 2022 General Ne Win's state reformation in the name of the "Burmese Way to Socialism" contributed to the expansion of the political role of the Myanmar Armed Forces, the *tatmadaw*, but the underlying dynamics of this change remain poorly understood. Drawing on propaganda publications, profiles of the country's political elites, and original documents in Burma's military archives, Yoshihiro Nakanishi offers a fresh look at the involvement of the *tatmadaw* in Burma's ideological discourse and civil-military relations. The *tatmadaw*'s anti-communist propaganda during the 1950s was a key element in state ideology under the Ne Win regime, and the direct participation of *tatmadaw* officers in the Burma Socialist Programme Party and government ministries at the national and local level transformed the political party system and civilian bureaucracy. Personal relationships -- between Ne Win and the *tatmadaw* officer corps, and within the military -- were central to the growing influence of the military, and to the outcome of the political crisis and subsequent military coup d'état in 1988. Nakanishi's discussion of these processes reveals many heretofore-unknown facts about this "dark

age" in the country's political history, and highlights its institutional legacy for the post-1988 military regime and the reformist government that succeeded it. His thought-provoking conclusions are significant for Southeast Asia specialists and for students of politics generally, and his insights will be useful for anyone seeking to engage with Myanmar as it comes to terms with an outside world it once kept at arm's length.

A Savage Dreamland Nov 14 2021 The first of its kind: an exploration of one of the most mysterious countries in the world, as told by one of the first outsiders to access the country in its entirety For almost fifty years Burma was ruled by a paranoid military dictatorship and isolated from the outside world. A historic 2015 election swept an Aung San Suu Kyi-led civilian government to power and was supposed to usher in a new golden era of democracy and progress, but Burma remains unstable and undeveloped, a little-understood country. Nothing is straightforward in this captivating land that is home to a combustible mix of races, religions and resources. A Savage Dreamland: Journeys in Burma reveals a country where temples take priority over infrastructure, fortune tellers thrive and golf courses are carved out of war zones. Setting out from Yangon, the old capital, David Eimer travels throughout this enigmatic nation, from the tropical south to the Burmese Himalayas in the far north, via the Buddhist-centric heartland and the jungles and mountains where rebel armies fight for autonomy in the longest-running civil wars in recent history. The story of modern Burma is told through the voices of the people Eimer encounters along the way: former political exiles, the squatters in Yangon's shanty towns, radical monks, Rohingya refugees, princesses and warlords, and the ethnic minorities clustered along the country's frontiers. In his vivid and revelatory account of life, history, culture and politics, David Eimer chronicles the awakening of a country as it returns to the global fold and explores a fractured nation, closed to foreigners for decades. Authoritative and ground-breaking, A Savage Dreamland: Journeys in Burma is set to be a modern classic of travel writing.

*State of Strife* May 09 2021 Since independence in 1948, Burma has been the scene of some of the most-sustained and diverse ethnic insurgencies in the contemporary world. This study examines the dynamics of conflict that have caused internal wars to become so uniquely entrenched in one of Asia's most troubled lands. Against a backdrop of conflict, different nationality movements have been able to adapt and survive, utilizing the changing political, economic, and international conditions in the country. In the process, armed opposition became a way of life in the borderlands, while the central state became increasingly militarized. Burma's conflicts, however, have not been static. This study identifies five major cycles of conflict that have seen the national government transform from a parliamentary democracy at independence through Gen. Ne Win's "Burmese Way to Socialism" to the current military State Peace and Development Council. As the political impasse continues, ethnic ceasefires and open-door economic policies are changing the structures of conflict. In an overview of humanitarian and international dilemmas, the study concludes that conflict resolution-with integrated support from the international community-remains a primary need if Burma and its peoples are to achieve peace, democracy, and a stable nation-state.

**Brahmanical Gods in Burma** Aug 12 2021 First published in 1932 as one of the three peripheral works resulting from Indian scholar Niharranjan Ray's comprehensive study of the origin and history of architecture in Burma, this illustrated monograph offers a rare insight into the profound influence of Hinduism upon the history and society of Burma from the early centuries AD.

**Bengalis in Burma** Dec 04 2020 The book looks at Bengali migrations and settlements in Burma from 1886 until the end of the British rule in Burma in 1948. As a result of British colonial policies, thousands of Bengalis from various classes and places in Bengal, migrated to Burma and established Bengali communities in different parts of the country. The book provides a study of a vast body of Bangla writings on Burma written during this period by the Bengalis, a majority of whom went to Burma in various capacities and with various objectives. It takes note of a complex network of power, subjugation, and resistance which is integrally related to these acts of representations in Bangla textual discourses. Drawing on stories, political discussions in Bangla journals, unknown autobiographies, travelogues, and uncelebrated poems, it explores the ways contemporary Bengalis looked at Burma for various reasons and wondered about their locations within colonial systems. An important contribution to the study of South Asia, the book brings forth issues of representation, colonial knowledge system, and modernity. It will be of interest to students and researchers of history, literature, migration studies, colonialism, and South Asian studies.

The Karen Revolution in Burma Aug 24 2022 This study analyses the various types and stages of conflict that have been experienced by diverse groups and generations of Karen over the six decades of armed conflict between the Karen National Union (KNU) and successive Burmese governments. Instead of focusing on those who are internally displaced, those in the refugee camps on the Thai-Burma border or living abroad, or those in the KNU, it places particular emphasis on the "other" Karen, or the majority segment of the Karen population living inside Burma, a population that has hitherto received little scholarly and journalistic attention. It also assesses the Karen people's varied attitudes toward a number of political organizations that claim to represent their interests, toward successive Burmese military regimes, and toward the political issues that led to the original divide between "accommodators" and "rebels." This study argues that the lifestyles and strategies that the Karens have pursued are diverse and not confined to armed resistance. Acknowledging these multiple voices will not only shed light upon the many positive features of ethnic interactions, including harmonious communal relationships and significant attempts to promote peace and stability by encouraging "normal" activities and routines in both peaceful and war-torn areas; it will also help to identify policy recommendations for future ceasefire negotiations and a possible long-term political settlement within the context of a militarized Burma.

**Mandalay and the Art of Building Cities in Burma** May 01 2023 Drawing on original Burmese texts and illustrations, recent scholarship, and mapping, *Mandalay and the Art of Building Cities in Burma* argues that the founding of Mandalay shifted critically in emphasis and scale during its planning from a protocol that established the royal city as a "cosmic city" to one that viewed the royal capital as a sanctuary. As part of that shift, François Tainturier shows, the founding protocol used Buddhist narratives as models for action and drastically altered patterns of spatial order that had been prevalent at former royal capitals. The systematic planning of Mandalay and the construction of its potent landscape constituted the expression--formulated not in words but in tangible form--of the throne's claim that Burma was a "Buddhist land," at a time when Lower Burma had been annexed by non-Buddhist believers. Tainturier provides further insight into how rulers articulated their lineage, power, and the promotion of Buddhism by creating potent landscapes. *Mandalay and the Art of Building Cities in Burma* renews scholarly discussion on Southeast Asian urban traditions and offers a critical investigation into the "cosmic" dimensions of one of the region's centers of power.

World leaders including Barack Obama ushered in waves of international support. Progress seemed inevitable. As historian, former diplomat, and presidential advisor, Thant Myint-U saw the cracks forming. In this insider's diagnosis of a country at a breaking point, he dissects how a singularly predatory economic system, fast-rising inequality, disintegrating state institutions, the impact of new social media, the rise of China next door, climate change and deep-seated feelings around race, religion and national identity all came together to challenge the incipient democracy. Interracial violence soared and a horrific exodus of hundreds of thousands of Rohingya refugees fixed international attention. Thant Myint-U explains how and why this happened, and details an unsettling prognosis for the future. Burma is today a fragile stage for nearly all the world's problems. Are democracy and an economy that genuinely serves all its people possible in Burma? In clear and urgent prose, Thant Myint-U explores this question - a concern not just for the Burmese but for the rest of the world - warning of the possible collapse of this nation of 55 million while suggesting a fresh agenda for change. Splendour of Buddhism in Burma Oct 14 2021 **SPLENDOUR OF BUDDHISM IN BURMA A JOURNEY TO THE GOLDEN LAND BY PASCAL CHRISTEL** An illustrated book offers a wide-ranging overview of Buddhism in Myanmar. Having been struck by the wonder and visual magnificence of Myanmar (Burma) during his travels there in 2015, Christel was inspired to write this work exploring the intricacies of the land, which, as he points out, has yet to be completely overrun with tourists. Visitors may find the place difficult to understand in any case, the author explains: "This is not a simple issue of democracy versus military junta. The practice of Theravada Buddhism for almost 90 per cent of the population includes some fatalism in order to reach nirvana." Although Christel's volume looks at a broad spectrum of the country's life and art, the main focus here is on the many sects and flavors of Buddhism and the various ways the religion intertwines itself with all levels of society. Buddhism, the author writes, "is all over, sovereign in the behavior of people, their way of life, their kindness, and their beliefs, but also in the art and architecture." That architecture in all its variety forms the heart of his book and is brought alive in a profusion of prints, ancient illustrations, and hundreds of original images by assorted photographers. Christel explores dozens of the nation's art forms, from pottery and lacquer work to ancient manuscripts and various architectural styles. He explains everything with an assured combination of enthusiasm and knowledge, whether he's writing about a tiny, obscure shrine perched on stilts off some little-visited waterway or an elaborate temple complex. The energy in tackling all of these details never flags; the author is always excited about the next discovery. "Burma is a treasure and a delight," he writes. "One's eyes are never at rest, and one must have the camera always ready for a shot." Readers, whether they've been to Myanmar or not, will feel as if they've trekked all over the country with a friendly, knowledgeable guide. A comprehensive, engrossing, and splendidly illustrated guide to the Buddhist art and architecture of Myanmar. Review Program: KIRKUS INDIE Categories: ART & PHOTOGRAPHY | PHILOSOPHY & RELIGION
